### Military Grade Drop Protection

Minor drops and bumps are no problem for this sturdy, structured case. In fact, the VersaVu® Case passes rigorous MIL-STD 810G testing\* to ensure it can protect your iPad® from drops up to 1.2 meters (4 feet).

#### Easy Portrait and Landscape Viewing

The patented, 360° rotating tray design makes for a smooth and easy shift from portrait to landscape mode. Plus, you can use the stand function in either, so your video conferences and FaceTime® calls are in the most comfortable viewing position.

#### Full Access, Full Functionality

A full coverage, patented, molded tray with reinforced corners allows for a safe, snug fit and top-notch protection. Precision cutouts give you full access to all ports, buttons, and controls, and ensures the camera is ready for photos or videos without removing your iPad® from the case.

#### Swipe or Type with Ease

The textured, non-slip interior lets you position your iPad® in a range of reading or viewing angles for watching videos or interacting with your screen, or flip the cover back for a comfortable typing angle.
